

Teel Track Nano™

Asset & Cargo Management IoT Solution Based on a Smart Hub and Wireless Sensor Network

The Teel Track Nano solution provides precisely the knowledge you need to manage your cargo and mobile assets more effectively.

Visibility

Enables real-time monitoring of the location and condition of cargo, assets and goods, including specific alerts related to issues and delays, using a smart portable hub with integrated sensing capabilities and a Wireless Sensor Network (WSN) based on the MultiSense Devices.

Efficiency

Ensures continuous recording, event-triggered logic and 'management by exceptions' through flexible programming of business rules to eliminate supply chain mistakes, avoid delays or damages, and reduce insurance expenses.

Security

Prevents theft, losses or misplacements by using proximity, tampering and location monitoring throughout the entire supply chain.
